The LED Technology To Offer A Real Game Changer Service

LEDs are a far superior technology than previous fluorescent "pink tubes"

Advantages respect fluorescent emitters:

- Focus and efficiency

With fluorescent technology the emission is a broad band around 630 nm. LEDs emit only on the wavelength that have biological effect. The Collagen Effect will be far more visible and effective. Younger Skin with better result in less time.

- Consumption

The entire LED part in LED Hybrid takes a consumption of about 240 watt. A

8 times increase in energy efficiency.

- Duration

LEDs life is about 15000 hours. Fluorescent usually 800/1000. You won't have to change

LEDs. Never.

PhotoBioModulation Collagen ONLY mode for a Real Beauty Treatment

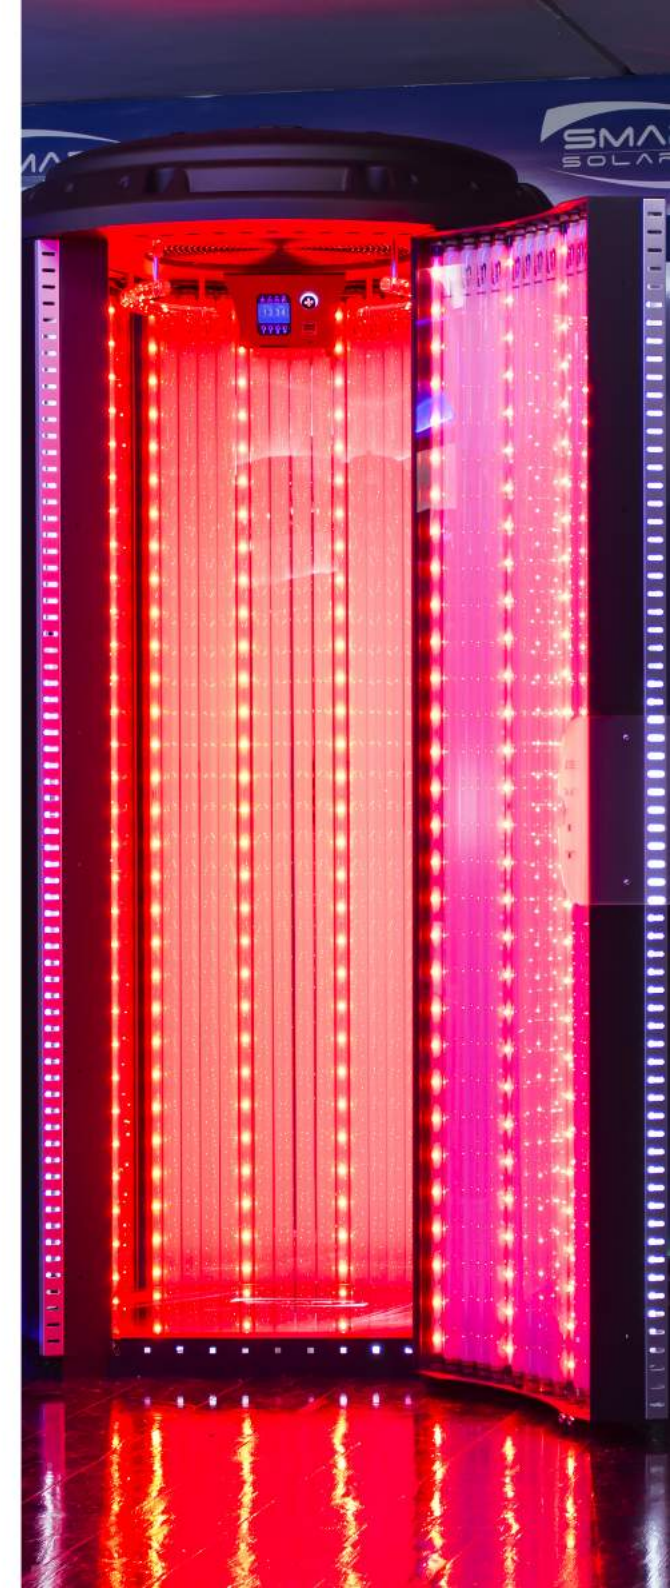

You want to make a COLLAGEN ONLY treatment?

Yes, You Can!

Thanks to the innovative electronic managing of Smart Solarium, you will be able to set the machine as Collagen (PhotoBioModulation) Only MODE.

*Only RED Light LEDs will turn on. You will be able to make a **longer session**, focused on Collagen Stimulation, to get the **best result**.*

All with a consumption of just 500 watt.

Fine Details. For a Real Deluxe Experience

Enjoy your music with the **bluetooth connection**, and keep track of the session and time with the **on-board computer**. Stimulate the production of precious **Vitamin D**, thanks to the focus on **UVB**.

Get **Wrapped** in the best feeling of an advanced treatment, with the comfort of the huge fan of **500 mm** to cool your body.

You will get tan in the best way, keeping your skin perfect, without heat or sweat.

Look Great, Feel Great, with this fine **Made in Italy** device.

Specs

<i>Typical session time:</i>	<i>8 minutes</i>
<i>LED:</i>	<i>480</i>
<i>Peak Power Irradiance:</i>	<i>153 mW/cm²</i>
<i>Wavelength Emission:</i>	<i>633 nm</i>
<i>power for LED:</i>	<i>1 Watt</i>
<i>Total Power:</i>	<i>12000 watt</i>
<i>Voltage:</i>	<i>380 V</i>
<i>Plug:</i>	<i>32 amp 5 poles</i>
<i>FAN:</i>	<i>500 mm</i>

Size and Weight

<i>Width:</i>	<i>110 cm</i>
<i>Depth (door open):</i>	<i>165 cm</i>
<i>Height:</i>	<i>235 cm</i>
<i>Weight:</i>	<i>450 kg</i>
